

Inventions and Innovations Awards Category

Miriam Shin

Meriden School

Water Filtration

The Young Scientist Awards committee would like to thank you for the time and effort you have put into your entry. We congratulate you on persevering with your project during another year impacted by COVID-19. We are hopeful that the working technological skills that you have adopted in your project will be of great benefit when undertaking further technology work during the remainder of your school life and that this experience has inspired you to pursue a STEM-based path in your future career.

Your project has been assessed by a team of judges who have assessed your entry against the judging rubric for your age and category. All rubrics are available on our website.

The strengths of your model of an innovative device include:

- responding to a need with purpose and direction,
- well-referenced background research, demonstrating a high level of scientific understanding.

Next time you could improve your model of an innovative device by:

- being creative in the design and innovative of the working model.

Congratulations once again on your achievement, and we look forward to receiving more projects from you in the future.
