

## Scientific Investigations Awards Category

**Sydney Nguyen**

Meriden School

What are the effects of medium on growth of plant propagation?

The Young Scientist Awards committee would like to thank you for the time and effort you have put into your entry. We congratulate you on persevering with your project during another year impacted by COVID-19. We are hopeful that the working scientifically skills that you have adopted in your project will be of great benefit when undertaking further investigative work during the remainder of your school life. We also hope that this experience has inspired you to pursue a STEM-based path in your future career.

Your project has been assessed by a team of judges who have assessed your entry against the judging rubric for your age and category. All rubrics are available on our website.

### **The strengths of your investigation include:**

- researching background information relevant to your project,
- providing evidence of critical thinking in your discussions and conclusions.

### **Next time you could improve your investigation and reporting by:**

- selecting a more appropriate graph type to display your data.

Congratulations once again on your achievement, and we look forward to receiving more projects from you in the future.
